Perfect experience

Two built-in 250W class-D power amplifiers drive 10" woofer and 1" tweeter and easily satisfies the amplification requirement of large events with a 500-1000 crowd, bringing an unprecedented quality sound experience.

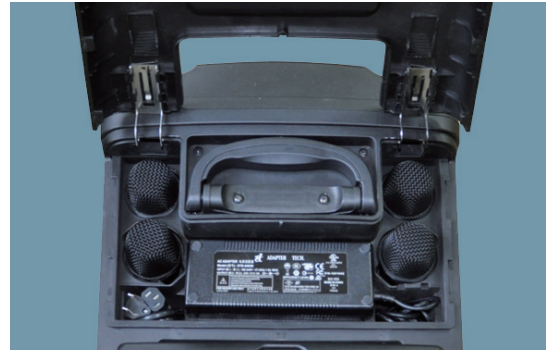

Easy setup

CHIAYO's receiver module can quickly search for an interference-free working channel and operate channel synchronization with one click, easy and quick to set up, allowing users to enjoy excellent sound quality.

More than meets the eye

Hidden storage compartment for 4 transmitters and a switching power supply, creating a sense of perfect one-piece design.

Flexible customization

The multimedia functions are flexibly expandable based on the requirement of various applications, such as the receiver module of wireless microphone, MP3 recorder player, Bluetooth receiver and interlinking transmitter module.

Able to connect active and passive speakers to extend the coverage. Under the wireless audio interlinking mode, 1 to many, the coverage immediately doubles and all blind spots disappear.
